

DATA-SYS

Advanced Technology Center, LLC.

DESIGN

ACAD designs and drawing that utilize geometric dimensioning and tolerancing.

Electrical circuit & schematic drawings for panel building.

MACHINING

Full service machine shop complete with cutting, grinding, turning and CNC milling capabilities.

Specializing in machining a broad spectrum of high-tech materials.

FABRICATION

From simple fixtures and prototypes to custom industrial machinery and equipment.

Tailored solutions for assemble equipment and test systems.

INTEGRATION

Automated systems utilizing pick & place actuators, pneumatics, stepper/servo motors, motion controlled drives, and PLC programming.

*Commitment to total quality machine design & build.
